- Integrate other third-party applications—including most CRM systems—with one click using Laserfiche Connector, a code-free integration tool

Capture Documents From Any Device

Laserfiche Cloud makes it easy to centralize paper and electronic files from multiple devices.

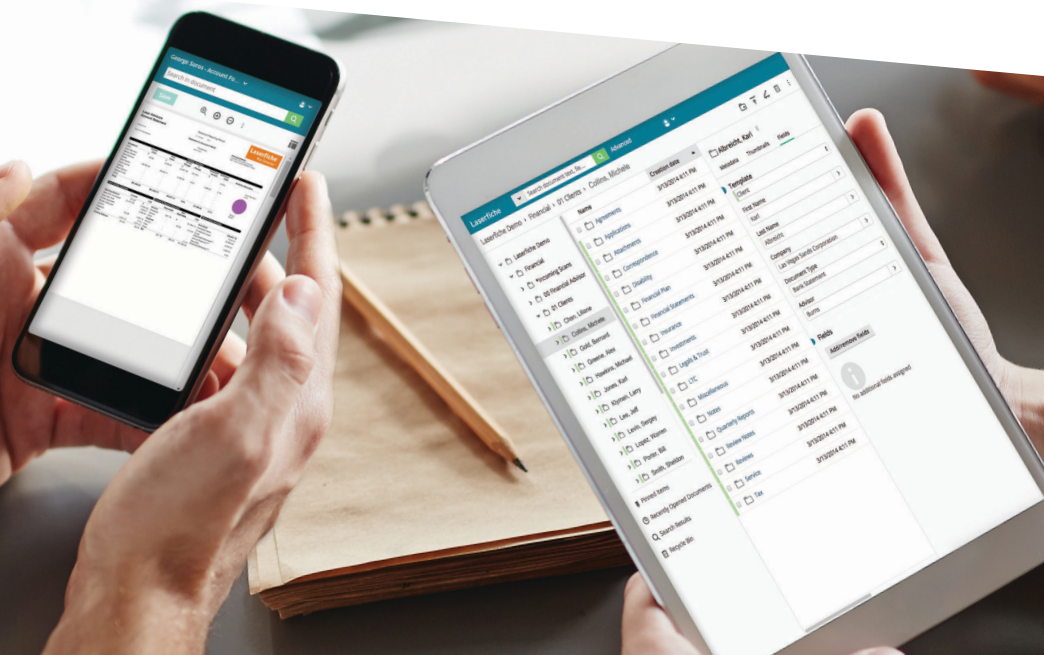

- **Scanning:** Convert paper records to imaged files on demand by connecting your scanner to Laserfiche Cloud with the Laserfiche Scanning tool
- **Digital Capture:** Reduce back-office work by saving to default folders with one click, auto-importing documents and automatically populating metadata
- **Mobile Capture:** Turn photos taken on phones and tablets into searchable, secure documents

Simplify Process Management

Save hours of staff time with built-in business process management tools that boost staff productivity and simplify task management for resource-intensive, multi-department processes including invoice processing, travel and expense management and contract management.

- **Electronic Forms:** Create and publish customized e-forms that require no coding or scripting
- **Work Automation:** Kick off routing and approval workflows when e-forms are submitted
- **Process Management:** View dashboards and reports of all submitted forms, pending and complete tasks and approval histories
- **Mobile Integration:** Review and approve submitted forms from any mobile device to keep business processes moving forward no matter where you are

Intuitive folder structures and a responsive user interface enable secure document access on any device.

Enable Rapid Adoption With User-Friendly Features

Get employees, customers, contractors and third parties using digital documents quickly with repositories that provide filtered, personalized views of files and options.

- **Custom User Views:** Filter by recently opened, frequently used and active documents
- **Rich Search:** Instantly retrieve documents with quick and advanced search options tailored to individual users' security rights
- **Robust Metadata:** View and modify all document metadata, annotations, fields and other modifications in a single user-friendly pane
